SULTAN®

Sultan® 50 SC is a residual herbicide for use in winter and spring oilseed rape, forming a foundation for the control of a wide range of broad-leaved weeds and annual grasses.

Key Benefits

- The key foundation of your OSR herbicide programme.
- Control of a wide range of broad-leaved and grass weeds.
- Tank mix flexibility to tackle particular problem weeds and maximise herbicide return on investment.

Advisory Information

This product contains metazachlor and is therefore included in the 'OSR Herbicides? Think Water' stewardship campaign. Particular care is needed when using in Surface Water Drinking Water Safeguard Zones:

- Do not use after 30 September on drained fields, including mole-drained.

In other areas:

- Avoid use after 15 October on drained fields, including mole-drained.

Product Information

Active ingredients:
500g/L metazachlor

Formulation:
Suspension Concentrate

Pack size: 5 litres

Application Information

Water volume: Pre-em; apply in a minimum of 100L/ha water
Post-em; apply in a minimum of 200L/ha water

Aquatic buffer: 5 metres

Crop Information

Crops	Max individual dose (L/ha)	Max number of treatments (per crop)	Timing and recommendations
Oilseed rape	1.5	1	Up to 4 leaf stage and before end of January in year of harvest

Aim to apply 1.0-1.5L/ha pre- or early post-em

Sultan® is a registered trademark of the ADAMA group. Sultan® contains 500g/L (44.3% w/w) metazachlor. Use plant protection products safely.
